The Merry Days of Old. In reading of the middle ages one b struck by the accounts given of feats of strength, etc., of the life actors of those times. The suits of armor worn, would certainly indicate the possession of greater physicial strength than is developed by men in these latter days. What wrought the change? Men lived in the merry days a more outsdoor life than this netvanced civilization of ours can afford. There is a greater consumption of brain matter, and that increased demand on mental and physical power necessitates the use of a pure vegetable, stimulant tonic, such as the Home Stomach B.t. 4-1m

The Laboratory of the System.

The stomach is the laboratory of the system, in which certain my sterious processes are constantly going on. These result in the production of that wonderful v vifying agent the blood, which in a state of health rushes laden with the elements of vitality to the remotest parts of the system. But when the stomach is semi-paralyzed by dyspepsia, blood manufacture is carried on imperiectly, the circulation grows thin and sluggish, and the system sufters in consequence. Mon over, indigestion reacts upon the liver and bowels, rendering the first sluggish and the latter constipated. The brain also suffers by sympathy, and sich headaches, sleepk sames and nervous symptoms are cugendered, Hostetter's Stomach Bitters reforms this state of things, gives perman at tone and regularity to the stomach and its associate organs, the bowels badly broken, and she was considerably and liver, and ensures complete nourish. ment and increased vigor of the system. It is the most popular as well as the most efficient anti-dyspeptic and tonic in Am-

Have You Tried It. We refer to that most remarkable compound, Dr. Morris' Syrup of Tar, Wild Cherry and Horehound, for coughs, colds, blood spitting, weak kings, croup, whooping cough, asthma, bronchitis, and all diseases of the lungs and throat. Probably no similar preparation ever before so quickly tound its way into public favor as this. Its sale in our community is simply enormous. Those who have been disappointed in other so-called remed'es, are specially invited to try this. Be sure to get the genuine Dr. Morris' Syrup of Tar, Wild Cherry and Horehound. There are imitations in the market. Look out for them. Trial size, 10 cents. Regular sizes, 50 cents

Their Wagon and Plow Factory What They are Doing, Etc.

Properly directed industry combined with economy and enterprise are quaits ties which scorn "luck" and inevitably bring to their possessor-whatever his surrounding -- uccess. So thought our reporter after he load been unexpectedly collered and shown through, what may justry be called, the extensive wagon and plow factory of Messrs. M for & Fessier. The factory, as is well-known, has but lately been constructed, and is located on Fenth street, between the avenues. The building as fir as now constructed is about 80 by 30 feet, and, when flaished, will extend over the ground on which now stands the old blacksmith-shop, and the factory will then be not less than one cases, etc. hundred teet in length.

THE MACHINERY

or the factory is already arriving and is being put up as tast as it arrives. The factory will, in the way of machinery. contain two rip saws two cross out saws. one platner, and in short, all machinery necessary in manufacturing wagons, buggles, plaws, etc., out of raw material. A boiler and an engine which will run all this machinery, will shortly be put up, and when once in running order the factory will be the means of giving employment to not less than from twentyfive to thirry men, as plow-makers, wagon-makers, black-miths, carpenters. painters, etc.

THE STURE ROOM. The building formerly occupied by Mesers. Straugh & Hinkle as a tobacvowarehouse, is the store room of the firm, and therein can be found wagons, plows and buggles handsomely painted and sub stantially mute. The plows are, by those who have them in use, conceded to be of superior quality and durability, and range in price from six to sixty dollars. We also found in this building whit is called the sulkey plow manufactured by Messrs, Major & Pessler, and noted

of plowing can be done in a short time. TO INDUSTRY. conomy and enterprise only can the success of Messrs. Major & l'essier be attributed. Unlike the hub factory, turniture factory or G M. Gamble, this firm has received no assistance, and with no capital, but Industry, and with the'r own hands have worked their way to their present standing, asking favorfrom none, but being firm believers in the max m, "Whatever is worth doing,

for the case with which a large amount

is worth doing well." But enough. That such men deserve encouragement will be conceded by all. & Co. an I that they will receive it from our citizens we sincerely hope
